- D. **Cancellation of Membership.** To keep a Membership in good standing, a Service Availability Charge must be paid monthly to the Corporation whether or not water is used. Failure to pay this monthly charge to the Corporation shall jeopardize the Member's Membership standing and give rise to liquidation of the Membership Fee and forfeiture of the Membership. A Member may be relieved of this obligation to pay by surrendering the Membership properly documented, to the Corporation. The Member shall also complete a Service Discontinuance Request Form prior to termination of service. (See. Section K. Miscellaneous Transaction Forms G. 4.) which the Membership arose. (Texas Water Code Section 67.016)

G. Re-assignment of Canceled Membership.

1. The Corporation, upon cancellation of Membership under the provisions of this Tariff, may re-assign the canceled Membership to a person or entity that has legal title to the real estate from which the canceled membership arose and for which water service is requested. The Corporation may transfer the Membership to the holder of such security interest in lieu of cancellation, provided the holder of the security interest pays in full all delinquent and unpaid obligations and provided further that the holder of the security interest has secured title to the real property from which the Membership arose. The Corporation may withhold cancellation of a Membership pending the resolution of any foreclosure proceedings or similar legal proceedings by the holder of the security interest.

I. Cancellation and Re-assignment of membership as results of Bankruptcy proceedings. Upon notice of the filing of a petition in bankruptcy, the Corporation may require the posting of a deposit or other form of security, acceptable to the Corporation, as a condition for continuing utility service. Unless special circumstances require otherwise, the amount of security shall equal the amount of charges for the month of greatest use during the preceding 12 months. The Corporation shall not require the payment of any security prior to the expiration of 20 days following the date on which the petition is filed. The Member shall be required to sign an Alternate Billing Agreement if the Member wants the renter to be billed in the renter's name. (See. Section K. Miscellaneous Transaction Forms A. 1.: Alternate Billing Agreement for Rental Accounts). The Member shall take responsibility for any necessary deposits from the renter/lessee to ensure payment of a past due bill. The Corporation shall notify the Member of the renter's past due payment status and final notice subject to service charges (See. Section K. Miscellaneous Transaction Forms A. 2., Notice to Owner of Rental Property). The Applicant may file for an appeal, in writing, with the Board of Directors of the Corporation.

15. ***Deferred Payment Agreement.*** The Corporation may offer a deferred payment plan to a Member who cannot pay an outstanding balance in full and is willing to pay the balance in reasonable installments as determined by the Corporation, including any Late Penalty Fees or interest on the monthly balance to be determined as per agreement. This agreement shall be agreed upon in writing and a copy shall be sent to the Member. (See. Section K. Miscellaneous Transaction Form E. 1.: Installment Agreement) Failure to make required payments by the 15th of each month, as provided in any deferred payment agreement will void that agreement and service will be discontinued on the 16th. The Corporation may consider another deferred payment agreement provided payments will be made by automatic bank draft or credit/debit card. Non-payment of any amount under an additional deferred payment agreement will cause service to be disconnected immediately and service will not be restored until the account is paid in full and all other charges resulting from the disconnection of service are fully paid.

The Member is required to complete any paperwork missing in the Members account paperwork file prior to any deferred payment agreement. (See. Service Agreement Application, Easement, Members Responsibilities, etc.)

The Corporation will not assess the credit card processing fee associated with Credit Card payments to those customers which make payment by credit card in accordance with consumer laws.

17. ***Due Dates, Delinquent Bills, and Service Disconnection Date.*** The Corporation shall mail all bill on the last working day of each month. All bills are considered the responsibility of each person signing the Service Application and Agreement Form. All bills shall be due and payable upon receipt and are past due beyond the fifteenth (15th) of each month, after which time a penalty shall be applied as described in Section G. 11. A bill is past due if not paid on or before the past due date. Payments made by mail will be considered late if postmarked after the past due date. A 3-day grace period may then be allowed for delayed payments prior to giving of final notices. Final notices shall state that the disconnection date is the twenty fifth (25th) of each month unless the twenty fifth (25th) falls on a Friday, holiday or weekend, at which the disconnection date will be the Monday following the twenty fifth (25th). The request may specify extension of the late payment periods for current and subsequent billings. (Texas Utilities Code Sections 182.001 - 182.005) If this request originates from a tenant at a rental property the owner/member will be notified in writing of any extension request.
- B. The board of directors or general manager may elect to not charge a late fee or disconnect fee in accordance with this Tariff during or after the occurrence of a natural disaster or other incident that impacts the property of members or interrupts the management and operation of the system.

- C. All insufficient fund checks, accounts closed or money orders that have had a “stop payment order” issued for payment of a water bill will be deemed delinquent as if no payment was received and the meter is subject to disconnection with notice on the regular disconnection day.

Section K. Miscellaneous Transaction Form E. 1.: Installment Agreement);
- 3) **Violation of the Corporation's rules pertaining to the use of service in a manner which interferes with the service of others or the operation of non-standard equipment** if a reasonable attempt has been made to notify the Member and the Member is provided with a reasonable opportunity to remedy the situation;
- 4) **Failure of the Member to comply with the terms of the Corporation's Service Agreement, Tariff, Bylaws, Right-of-Way Easement, or Special Contract** provided that the Corporation has given notice of said failure to comply, and Member has failed to comply within a specified amount of time after notification.
- 5) **Failure to provide access or hindering access to the Corporation's equipment under the terms of this Tariff or to property at which water service is received** when there is reason to believe that a hazardous condition or policy violation exists for which access is necessary to verify. Conditions that may hinder access include, but are not limited to, fences with locked gates, vehicles or objects placed on top of meters or meter boxes, and unrestrained animals.
- 6) **Misrepresentation by any Applicant or Transferee of any fact on any form, document, or other agreement required to be executed by the Corporation.**

(Note: The cancellation of membership must be in writing and signed by the Member. CORPORATION ASSUMES NO LIABILITY TO RENTER/LESSEE; MEMBER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH, AND LIABILITY UNDER ANY FEDERAL, STATE OR LOCAL LAW CREATING OR PROTECTING RIGHTS OF RENTERS/LEESSEES.)

The Corporation will provide the Member with notice detailing the extent of the damage, the location of the damage, the cost of repair, and whether the damage occurred on private property or on a public right-of-way.  - 11) Failure to disconnect or secure additional service tap(s) for an RV or other service connection (See. Section E. 28.) after notification by the Corporation of violation of the Prohibition of Multiple Connections.
- B. Disconnection Without Notice.** Water utility service may be disconnected without notice for any of the following conditions:
- 1) A known dangerous or hazardous condition exists for which service may remain disconnected for as long as the condition exists, including but not limited to a public health nuisance as defined in Texas Health and Safety Code Sections 341.011 or 343.011. If there is reason to believe a dangerous or hazardous condition exists, the Corporation may conduct a customer service inspection (CSI) to verify the hazardous condition and may notify the local county health office. The Corporation will disconnect without notice if the Member refuses to allow access for the purpose of confirming the existence of such condition and/or removing the dangerous or hazardous condition (30 TAC 290.46(i) and 290.46(j)). Service will be restored when a CSI confirms no health hazard exists, the health hazard has been removed or repaired, or the health hazard has been isolated from the Corporation's water system by the installation of a backflow prevention device.
 - 2) A line leak on the member's side of the meter is considered a potential hazardous condition under Section E. 18. B. 1. If the Corporation conducts a CSI and discovers that the line leak has created a hazardous condition, the Corporation will provide the member up to five (5) business days, or another time period determined reasonable under the circumstances, to repair the line prior to disconnection of service.

- 3) Service is connected without authority by a person who has not made application for service or who has reconnected service without authority following termination of service for nonpayment; and
 - 4) In instances of tampering with the Corporation's meter or equipment, by-passing the meter or equipment, or other diversion of service. **NOTE:** Where reasonable, given the nature of the reason for disconnection, a written statement providing notice of disconnection and the reason therefore shall be posted at the place of common entry or upon the front door of each affected residential unit as soon as possible after service has been disconnected.
- C. **Disconnection Prohibited.** Utility service may not be disconnected for any of the following reasons:

 - 2) Failure of the Member to pay for a different type or class of utility service unless a fee for such service is included in the same bill;
 - 3) Failure of the Member to pay charges arising from an underbilling occurring due to any misapplication of rates more than six (6) months prior to the current billing;
 - 4) Failure of the Member to pay the account of another Member as guarantor thereof, unless the Corporation has in writing the guarantee as a condition precedent to service;
 - 5) Failure of the Member to pay charges arising from an underbilling due to any faulty metering, unless the meter has been tampered with or unless such underbilling charges are due under the Inoperative Meters (See. Section E. 23.)
 - 6) Failure of the Member to pay estimated bill other than a bill rendered pursuant to an approved meter reading plan, unless the Corporation is unable to read the meter due to circumstances beyond its control
- D. **Disconnection on Holidays and Weekends.** Unless a dangerous condition exists or the Member requests disconnection, service shall not be disconnected on a day, or on a day preceding a day, when personnel of the Corporation are not available to the public for the purpose of making collections and reconnecting service.
- E. **Disconnection Due to Utility Abandonment.** The Corporation may not abandon a Member or a Certificated Service Area without written notice to its Members and all similar neighboring utilities and approval from the PUC.
- F. **Disconnection for Ill and Disabled.** The Corporation may not discontinue service to a delinquent residential Member or tenant under an alternative billing agreement permanently residing in an individually metered dwelling unit when that Member or tenant establishes that discontinuance of service will result in some person at that residence becoming seriously ill or more seriously ill if service is discontinued. To avoid disconnection under these circumstances, the Member or tenant must provide a written statement from a physician to the Corporation prior to the stated date of disconnection. Service may be disconnected in accordance with Subsection A. of this Section if the next month's bill and the past due bill are not paid by the due date of the next month's bill, unless the Member enters into an Installment Agreement (See. Section K. Miscellaneous Transaction Forms E. 1.: Installment Agreement). The Corporation shall provide notice to

an owner of rental property in the event a tenant requests service not be discontinued due to illness as per this subsection.

- 1) The Corporation shall send a notice to the Member as required. This notice shall also inform the Member that notice of possible disconnection will be provided to the tenants of the service complex in five (5) days if payment is not rendered before that time.
- 2) At least five (5) days after providing notice to the Member and at least five (5) days prior to disconnection, the Corporation shall post notices, stating "Termination Notice" in public areas of the service complex notifying the residents of the scheduled date for disconnection of service.
- 3) The tenants may pay the Corporation for any delinquent bill in behalf of the owner to avert disconnection or to reconnect service to the complex.

H. **Disconnection of Temporary Service.** When an applicant with a Temporary service fails to comply with the conditions stated in the Service Application and Agreement Form or other rules of this Tariff service may be terminated with notice.

19. **Billing Cycle Changes.** The Corporation reserves the right to change its billing cycles if the work load requires such practice. After a billing period has been changed, the billings shall be sent on the new change date unless otherwise determined by the Corporation.
20. **Back-billing.** The Corporation may back-bill a Member for up to four (4) years (48 months) for meter error, misapplied meter multiplier, incorrect meter readings, or error in computing a Member's bill. Failure to pay the most recent six (6) months billing will result in disconnection of service. Back-billing shall not extend beyond current Membership except in cases involving the transfer of a Membership conditioned upon payment of delinquent obligations by the Transferee, as provided in Section E. 10. C.
21. **Balance Defaults.** If a member defaults on an account and leaves an outstanding balance, the balance cannot be charged to the new customer. If the customer with an outstanding balance applies for service on the previous or new account, the defaulted balance can be assessed as part of the customer's connection fee.
22. **Disputed Bills.** In the event of a dispute between the Member and the Corporation regarding any bill, the Corporation shall make and conduct an investigation as required by the particular case, and report the results in writing thereof to the Member. All disputes under this Subsection must be submitted to the Corporation, in writing, prior to the due date posted on said bill.
23. **Inoperative Meters.** Water meters found inoperative will be repaired or replaced within a reasonable time. If a meter is found not to register for any period, unless by-passed or tampered with, the Corporation shall make a charge for units used, but not metered, for a period not to exceed six (6) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years.

24. *Bill Adjustment*

- A. **Due to Meter Error.** The Corporation shall test any Member's meter upon written request of the Member. In the event the meter tests within the accuracy standards of The American Water Works Association, a test fee as prescribed in Section G. 28 of this Tariff shall be imposed. In the event the test results indicate that the meter is faulty or inaccurate, the test fee shall be waived, the meter shall be calibrated or replaced, and a billing adjustment may be made as far back as six (6) months but not extending beyond current Membership except in cases involving the transfer of a Membership conditioned on payment of delinquent obligations by the Transferee, as provided under Section E. 10. C. The billing adjustment shall be made to the degree of the meter's inaccuracy as determined by the test. The Member shall complete a Meter Test Request Form prior to the test. (See. Section K. Miscellaneous Transaction Forms G. 7.: Meter Test Authorization and Test Report)
- B. **Due to Estimated Billing.** If the Corporation has estimated usage because the Corporation is unable to access the meter due to circumstances beyond the Corporation's control, such as a natural disaster; or because access is hindered or denied by a Member, the Corporation shall adjust the bill once access has been regained and actual usage is determined.

25. *Meter Tampering and Diversion.*

- A. For purposes of this Section, the term "Tampering" shall mean meter-tampering, by-passing, or diversion of the Corporation's service equipment, or other instances of diversion, including:
- 1) Removing a locking or shut-off device used by the Corporation to discontinue service,
 - 2) Physically disorienting the meter,
 - 3) Attaching objects to the meter to divert service or to by-pass,
 - 4) Inserting objects into the meter,
 - 5) Other electrical and mechanical means of tampering with, by-passing, or diverting service.
 - 6) connection or reconnection of service without Corporation authorization;
 - 7) connection into the service line of adjacent customers of the Corporation; and
 - 8) preventing the supply from being correctly registered by a metering device due to adjusting the valve so that flow is reduced below metering capability.
- The burden of proof of meter-tampering, by-passing, or diversion is on the Corporation. Photographic evidence or any other reliable and credible evidence may be used; however, any evidence shall be accompanied by a sworn affidavit by the Corporation's staff when any action regarding meter-tampering as provided for in these Sections is initiated. A court finding of meter-tampering may be used instead of photographic or other evidence, if applicable. Unauthorized users of services of the Corporation shall be prosecuted to the extent allowed by law under the Texas Penal Code 28.03 and 12.21 and 12.22
- B. If the Corporation determines under subsection A that Tampering has occurred, the Corporation shall disconnect service without notice as set forth in Section E. 18. B. and charge the person who committed the Tampering the total actual loss to the Corporation, including the cost of repairs, replacement of damaged facilities, and lost water revenues.
- C. A person who otherwise destroys, defaces, damages or interferes with Corporation

property will be charged the total actual loss to the Corporation including but not limited to the cost of repairs, replacement of damaged facilities, and lost water revenues. The Corporation also will prosecute the offending party to the extent allowed under law pursuant to Texas Water Code Section 49.228 and other applicable laws.

- D. Service capacity is available at proposed location; and
- E. The relocation is limited to the existing property designed to receive service.
- F. Once the meter is relocated there will be no equipment at the old location, thus any need for service at the old location will be regarded as new service with all applicable fees.

27. *Requirements for Reconnection of Service for previous Member.* If a previous Member applies for reconnection of service, which has been previously disconnected for any reason, the Corporation cannot refuse reconnection as long as the following requirements are met:

- A. A new Service Application and Agreement form shall be completed in full and signed by the Applicant. (See. Section E. 3. A.)
- B. Proof that ownership of the property has not changed hands. Proof of ownership shall consist of a copy of the warranty deed, deed of trust, or other recordable documentation of fee simple title to the real estate designated to receive service. (See. Section E. 3. C.)
- C. Applicant shall pay all of the Corporation’s normal costs and fees for reconnection of service, (See. Section G. 8.)
- D. Further, if a Right-of-Way Easement is not on file for the property, the Corporation may request that an easement be given, but the Corporation cannot require that a previous member grant an easement as a condition of reconnection. However, if the property has changed hands during the time of reconnection, the Corporation shall mail, via the U.S. Postal Service, a notice requiring redemption of the returned instrument within ten (10) days of the date of the notice to be made in the Corporation office. The Corporation can and will require that an easement be given as a condition of reconnection,
- E. A Service Inspection shall be conducted for each Service Application submitted to the Corporation’s office.

28. *Prohibition of Multiple Connections to A Single Tap.*

- A. No more than one (1) residential, commercial, or industrial service connection is allowed per meter. The Corporation may consider allowing an apartment building or mobile home/RV park to apply as a “Master Metered Account” and have a single

meter tap (See. Section E 29.) If the Corporation has sufficient reason to believe a Multiple Connection exists, the Corporation shall discontinue service under the Disconnection with Notice provisions of this Tariff for a first violation and for subsequent violations, service will be disconnected without notice in accordance with section E. 18. B. (See. Section J. Application Packet 1.: Service Application and Agreement RUS-TX Bulletin 1780-9 (Rev. 05/17))

B. For purposes of this section, the following definitions shall apply:

- 1) A “multiple connection” is the connection to any portion of a member’s water system that is connected to a primary delivery point already servicing one residence, one commercial or industrial facility of a water line serving another residence or commercial or industrial facility. Water lines to outbuildings, barns or other accessory structures shall not be consider a multiple connection if:
 - (i) those structures are located on the same tract as the primary delivery point and
 - (ii) such structures are not used as a residence or as a commercial or industrial facility.
- 2) A “primary delivery point” shall mean the physical location of a meter tap that is installed in accordance with this Tariff and applicable law and which provides water service to the residence or commercial or industrial facility of a member.
- 3) A “residence” shall mean any structure which is being used for human habitation, which may include kitchen and bathroom facilities or other evidence of habitation as defined by the Corporation.

A business conducted within a member’s residence or property that does not require water in addition to that provided to the member’s residence shall not be considered a separate commercial facility.

C. The corporation agrees to allow members in good standing to share water usage with a visitor on their property with a recreation vehicle (RV) or travel trailer for a period of no longer than three months. If the recreation vehicle/travel trailer is being used for a permanent residence, this Tariff requires that an additional meter installation and membership be purchased. If the member routinely has more than one visitor at a time with recreation vehicles or travel trailers or has multiple visitors throughout the year, the corporation may require that a second or additional meter(s) be purchased. The member must submit a written request to the corporation’s business office at least five (5) business days prior to sharing corporation water with a visitor. The corporation has the right to refuse or deny the shared usage for any reason. The corporation also has the right to inspect the premises for any potential cross-contamination issues as outlined in the Customer Service Inspection requirements and to ensure that the meter is properly sized for the additional usage at the time of total peak water demand. These requirements pertain to visitors ONLY. No commercial usage where fees for water are charged is allowed. If a member is found to violate these conditions, the member will be sent a letter.

29. **Master Metered Account Regulations.** An apartment building, condominium, manufactured housing (modular, mobile or RV) community, business center or other similar type enterprise may be considered by the Corporation to be a single commercial facility if the owner applies for a meter as a “master metered account” and complies with the requirements set forth in PUC rules, this Tariff and applicable law. The Corporation may allow master metering service to these facilities at an Applicant’s request. (16 TAC (24.124(e)(1)).
30. **Bill Adjustment Due to Member Flushing.** The Corporation shall discount a customer’s billing account if the customer requests a flushing discount within seventy-two (72) hours of a catastrophe or act of God. (See. Section J. 1 -4). If access to the meter is hindered or denied preventing the reading of the meter, an estimated bill shall be rendered to the Member for the month; and a notice shall be sent to the effect that access could not be gained. If access is denied for three (3) consecutive months after proper notification to the Member, then service shall be discontinued and the meter removed with no further notice. Conditions that may hinder access include, but are not limited to, fences with locked gates, vehicles or objects placed on top of meters or meter boxes, and unrestrained animals. (See. Section E. 18. A. 5.)

livestock water troughs shall be plumbed above the top of the trough with air space between the discharge and the water level in the trough. (30 TAC 290.46, Texas Health & Safety Code Chapter 366)

2) The use of pipe and pipe fittings that contain more than 0.25% lead or solder and flux that contain more than 0.2% lead is prohibited for any plumbing installation or repair of any residential or non-residential facility providing water for human consumption and connected to the Corporation's facilities. Customer service pipelines shall be installed by the applicant. (30 TAC 290.46; RUS-TX Bulletin 1780-9 (Rev. 05/17))

Therefore, all water usage registering upon or estimated and/or damages occurring to the metering equipment owned and maintained by the Corporation shall be subject to charges as determined by the Corporation's Tariff as amended from time to time by the Board of Directors.
- E. The Corporation shall require each Member to have a cut-off valve within two feet of the meter on the Member's side of the Corporation's equipment for purposes of isolating the Member's service pipeline and plumbing facilities from the Corporation's water pressure. The valve shall meet AWWA standards (a ball valve is preferred). **The Member's use of the Corporation's curb stop or other similar valve for such purposes is prohibited. Any damage to the Corporation's equipment shall be subject to service charges (This cut-off valve may be installed as a part of the original meter installation by the Corporation.).**
- F. This Membership entitles the Member to one connection of water service, to serve only one residence or business.
- G. The minimum monthly Service Availability Charge is due and payable each month whether or not water is used.
- H. The Member must notify the office of the Corporation in writing of any address or telephone number changes.
- I. The Member understands that if the meter is locked for non-payment of a bill, the meter will remain locked for ten business days. If payment is not made within these 10 days, the meter will be removed and the Membership in the Corporation liquidated. If service is requested in the future, all delinquent fees plus current charges for service must be paid. This includes past due balance, Delinquent Payment Fee, new Membership Fee and all service fees.
- J. It is the Members responsibility to contact the office if a bill has not been received for the month. Not receiving a bill does not void the late charge, other fee or requirements, etc.
- K. The Member will allow the water system operator or representative to check the property for illegal or unsafe conditions.
- L. The Member is responsible for all water usage registered on the meter (unless meter is in error). The member will pay for this usage whether it is from known or unknown leaks, or line breaks.
- M. Regardless of the meter's location the Member will keep a four-foot radius around the meter clean and clear of debris.

- N. If the Corporation's equipment is located behind a secured area, the Member will provide a key or gate code to the Corporation, for access for meter reading, maintenance, etc. If for any reason, the Corporation is unable to gain access to the equipment for two months, the Member agrees to pay all costs incurred in relocating the equipment to an accessible area.

- P. The member is required to notify the system forty-eight (48) hours prior to digging or excavation activities along or near water lines and appurtenances.
- Q. Legal action may be taken after the membership has been liquidated to help satisfy all delinquent fees. The former member shall be responsible for all court costs in connection with the recovering of all delinquent fees.
